

# PREPARING MAKES SENSE

## GET *READY* GEORGIA

If you are not prepared for an emergency, you are not alone: 79 percent of Georgians are not prepared to survive in the event of a large-scale emergency.

Tornadoes • Hurricanes • Pandemic Flu  
What would you do if disaster struck?

3 Steps to Get Ready

**PREPARE:** CREATE A READY KIT.

**PLAN:** MAKE A FAMILY COMMUNICATIONS PLAN THAT INCLUDES HOW YOU GET IN TOUCH, EVACUATION PLANS AND MEETING PLACES.

**STAY INFORMED:** KNOW WHAT EMERGENCIES COULD AFFECT YOUR AREA AND HOW TO RESPOND.

### What's in Your Kit?

Emergency crews could take up to 72 hours to reach you after a disaster. Get a kit and you'll be ready. Start with:

- Food, at least a 3-day supply
- Water, one gallon per person per day
- Flashlight and extra batteries
- Battery-powered/hand crank radio and a NOAA Weather Radio
- First aid kit
- Special items for infants, pets, elderly or the disabled
